Warranty and Warranty Period

This Warranty applies to you being the purchaser or end-user of the Projector.

Optoma warrants to you that if during the first three years from the date of purchase or 12,000 operational hours of the Projector, whichever comes first ("Warranty Period") the Projector does not comply with the Warranty, Optoma or an Optoma authorised service company will, in a commercially reasonable time, remedy defects in materials, design and workmanship free of charge by repairing, or should Optoma in its discretion deem it necessary, replacing the Projector in accordance with this Warranty (unless otherwise required by law). This Warranty is only valid and enforceable in the country where you have purchased both the Warranty and the Projector provided that Optoma has intended the Warranty is for sale in that country and applies only to the Warranty distributed by Optoma or its authorised dealers. Optoma will process each valid claim as quickly as practicable within the constraints of their operational procedures. Optoma shall not be held responsible or liable for any loss, financial, consequential or otherwise, howsoever caused due to any delay whatsoever in the supply of a refurbished or replacement Projector under this Warranty.

The Warranty must be purchased within 1 month (30 days) from the Projector purchase date. The Warranty Period starts at the time of the Projector's original purchase by the first end-user.

This Warranty extends any Projector warranty terms or warranty period in the Optoma limited warranty document applicable to the original Projector.

The Warranty Period will not be extended or renewed or otherwise affected due to:

1. Subsequent resale; or
2. Optoma authorised repair; or
3. Optoma authorised replacement of the Projector
